Trauma Informed Schools

Designed for school staff, from the superintendent on down, this training provides educators with the 10 steps to creating a trauma-informed school.

Topics Include:

- 1.) understanding trauma and its impact on students
- 2.) viewing trauma as an experience
- 3.) the link between private logic and behavior
- 4.) prioritizing social-emotional skill development
- 5.) establishing safety
- 6.) fostering connections
- 7.) promoting play
- 8.) collaborating with families and the community
- 9.) supporting staff
- 10.) collecting and utilizing data

In addition to these topics we will discuss how school staff can incorporate findings from the Adverse Childhood Experiences (ACE) study into their education and support services. We will view and discuss a film on resilience and how this new science and fresh approach can change the lives of students for the better.
